

1) Cut around the solid black lines - be sure not to cut off the white flaps, you'll need them later. Don't forget to cut a slot in the top for the coins to go in (you should ask your parents to help you by using a utility knife cutting on a hard, flat surface that won't matter if it gets marked). 2) Fold along the dotted lines as shown in the picture. 3) Place glue (a glue stick works best) on the white tabs and stick it all together in the order shown in the picture.

IT DOESN'T STOP THERE! Most of these kids will tell others (their friends and family) about this hope. So beware, what you put into this box may just EXPLODE!

The contents of this box can be EXPLOSIVE! When they are used to send kids to camp they can make a BIG impact. Every time you collect \$5 in this box another kid gets to go to camp - something they would not have been able to do without you. At camp they will hear a message of HOPE - many for the very first time!
